Les Artistes: What Cola Looks Like

I would have never thought that cola could make great art, but it does, thanks to BevShots:

art. distilled.
 BevShots are your favorite beers, wines and cocktails photographed under a microscope. Printed on high-quality canvas or archival paper, BevShots' vibrant colors and abstract patterns bring an edgy element to any room in your home or office. BevShots make the perfect splurge for yourself or a truly unique gift for friends and family. Interior designers agree - homes to hotels, restaurants to company conference rooms - BevShots easily mix in with today's trends in modern décor. From start to finish, this affordable, customizable, and contemporary art is proudly made in the U.S.A.
